

IF YOU HAD A CURE WOULD YOU SHARE IT?

Louis Pasteur was a French chemist in the mid - 1800's who discovered that there were invisible microscopic organisms that were killing many women in the maternity wards of hospitals in his day. He stated that the cure was simple: all the doctors needed to do was disinfect themselves by properly washing their hands. He indeed had the cure but many did not listen and failed to heed his findings! Please read this pamphlet. The message could do more than save your life physically!

What could be more deadly than cancer, AIDS or even the coronavirus? What if there was a cure for these deadly diseases? In fact, what if you had one of these deadly diseases and thousands of people had the cure and kept it to themselves? Surely you would be terribly angry.

Today there is much frustration about the coronavirus, because there are no answers as to how to treat it and it spreads rapidly and is deadly to many people. The truth is we are all going to die someday from something and what if there were a cure for death itself? Many years ago, a few friends shared with me that there is a cure for what causes all physical and spiritual death. This spiritual disease is called Sin. In fact, the cure was quite simple. I'll never forget my reaction to the message regarding this cure. I said, "If what you are saying is true, what kind of person would I be if I did not share it with everyone I could? Such an important finding would be more important than any physical vaccine or cure discovered."

That thought frightened me! I realized a lot of people would not want to hear about the cure because of their skepticism. Just like in the days of Pasteur, people today are skeptical about what they cannot see with their physical eyes. Pasteur had the boldness to tell the Emperor that the hospitals of Paris were houses of death, and that there was hardly a doctor who didn't carry death on his hands. After accurately predicting the death of the Emperor's sister-in-law from infection while giving birth to her child, Pasteur was condemned as a fraud and banned by the Emperor from ever speaking out publicly about medicine again. Thank God for the courage of men like Pasteur who would stand up against the medical community of his day. But there is a greater killer and threat today... and many are not sharing the cure! Even in the religious community!

Today, many fear to speak about the cure for sin and death for fear of ridicule and rejection. I delayed believing the message for a while, until God gave me the bravery to stand for the truth! Now this is why I am sharing this message with you.

Pasteur later discovered that if you kill a disease and inject a form of it into a person or animal, this could be a vaccination to protect against exposure to the disease in the future. Again Pasteur was ridiculed for such an idea, but he persevered and produced an Anthrax and Rabies vaccine.

HERE IS THE MESSAGE OF THE CURE

The cure is simple. The Bible says in Isaiah 53:5 ***But He was wounded for our transgressions, He was bruised for our iniquities; the chastisement of our peace was upon Him; and with His stripes we are healed.*** Jesus Christ, the eternal Son of God, came to earth by taking on human flesh. He miraculously was born of a virgin named Mary, the espoused wife of a man named Joseph. Thus having bypassed the seed of man, He also bypassed our Sin nature inherited from the first man Adam. We all inherit the spiritual disease called Sin, which started with the first sinner Adam. Jesus alone was worthy to be **The Substitute** for **our sin** because He is eternally sinless and pure. He arose from the dead demonstrating His eternal victory and promises to return to earth someday soon to establish His Kingdom.

JESUS CHRIST IS THE CURE

When a person receives a vaccine it is injected into their body. Jesus used the spiritual illustration of being a spiritual vaccine before mankind even knew what that was. The night He was betrayed He took bread and said, "Take eat this is my body..." He took a cup and said, "Take, drink this is my blood." In another place He said, "Unless you eat my flesh and drink my blood ... you cannot be saved." What did He mean by this?

Jesus meant that on the cross He defeated sin and death. It is not a physical vaccine we need it is a spiritual one. If we receive His Spirit into our hearts we can be saved!

We receive this cure by asking for it. Jesus was called the Great Physician (Mark 2:17). He said, those who do not think they need the cure for their sin will not ask for it. If you believe you are sinner - stricken with this most deadly cause of all disease and death (*according to the Scriptures*), believing that this will lead to both, your physical and spiritual death... then you are in a position to ask for the cure for your ailment!

WE MUST ASK FOR THE CURE

Jesus said in John 6:37 ***All that the Father giveth me shall come to me; and him that cometh to me I will in no wise cast out.*** If you cry out to Him for His spiritual vaccine, He will send His Holy Spirit into your heart and save you from sin and eternal death. The Scripture is clear that if a person calls on the name of the Lord, they shall be saved. Cry out to Him in a sincere prayer of faith, believing the gospel that has been shared with you, and He will send His Holy Spirit (God's spiritual vaccine) into your heart and save you. He will change your life just as He did for me and He will bring victory over the sin and spiritual death which we all deserve (i.e. eternal hell)... for our sin is against God.

You may say ... "That is too simple!" That's exactly what I said! Actually when Pasteur postulated that all the physicians needed to do to save the lives of the women dying

in the hospitals was to wash their hands, the idea seemed ridiculous to the doctors. Why did they laugh? It was because they could not believe what they could not see. Many people do not believe the message of the gospel news because it takes faith to believe in the message. But how will a person receive the message without a messenger? Jesus told His messengers in Mark 16:15-16: ***Go ye into all the world, and preach the gospel to every creature. He that believeth and is baptized shall be saved; but he that believeth not shall be damned.*** Romans 10:13 ***For whosoever shall call upon the name of the Lord shall be saved.*** So what kind of person would I be if I had the cure and did not share it with you? This is the purpose of this little pamphlet.

Just as we would receive a physical vaccine to save our lives from certain deadly diseases, so too we need to receive Christ's Holy Spirit to be cleansed of all sin and enter into heaven someday. Call on Him today and open your heart to His gift of eternal life and you will receive His Gift of the Holy Spirit.
